

Bug Smash: Low Hanging Fruits

- Several bugs in platform software that are easy to fix:
 - NFD faces/destroy should not destroy reserved faces ([#4115](#)).
 - NFD crashes upon binding to a tentative IPv6 address ([#5155](#)).
 - NFD crashes upon receiving TCP RST ([#5158](#)).
 - PSync relies on Name URI syntax that is non-portable ([#4838](#)).
 - NLSR crashes if security is disabled ([Slack#nlsr 2021-03-30](#)).
- You are expected to:
 - Submit commits to NDN Gerrit.
 - Review each other's code on Gerrit during the hackathon.
 - Follow up with reviewers after the hackathon until commits are merged.
